

# 1980 INDEX

VOLUME 76

JANUARY-DECEMBER 1980

## GENERAL ARTICLE INDEX

(\*) Illustrated articles

(A) What's the answer?

(E) Editorial

(F) Feedback

### American Association of Railroads:

AAR reply to proposed FRA standards, (E) March 36

### American Railway Engineering Association:

AREA D.C. move paying off, bullish view of future, \*April 25

Committee 27 meeting: training help sought from suppliers, \*April 31

Committee 22: Improving technical effectiveness; increasing federal collaboration, \*July 24

### Bankhead Enterprises, Inc.:

Tie-buttrotating dump unit also a ditcher, \*Feb. 32

### Boston & Maine:

The Boston & Maine: backing away from the brink—and on good track, \*March 44

Grade crossing renewal: the B & M experience, \*May 25

### Bridges:

Modified precast girders save on L & N bridge, \*Feb. 38

Steel bridge corrosion, (A) March 98

Maintaining bridge piles, (A) March 103

Purpose of sliding joints: use on moveable-span and fixed-span bridges, (A) March 106

Investigating bridge scour, \*April 34

Service life of steel and concrete bridges, factors involved, (A) April 59

Dapping of bridge ties, (A) Sept. 92

Dapping of bridge ties, (A) Oct. 50

Frozen pier member, (A) Dec. 43

### Bridges and Buildings:

Novel underpinning preserves historic RR shed, \*Jan. 26

### Burlington Northern:

New machines speed track surfacing to meet construction schedule, \*March 76

Abominable snowdrifts—BN ready, \*Feb. 11

### Canadian National Railroad:

The Canadian National: Part 1. Winning against heavier traffic, axle loads, \*Nov. 22

On-the-spot report from Western Canada, \*Dec. 21

CN Rail, Part 2 continued, Examining the concrete tie option, \*Dec. 26

### CP Rail:

Winter war, CP Rail battles blizzards coast-to-coast, \*Jan. 20

CP Rail stabilizes soil electrically, \*Feb. 30

### Cedrite Corp.:

To up Cedrite tie production, \*Feb. 36

### Chessie System:

New Chessie yard built on old, \*Oct. 44

Classification yard: New Chessie yard built on old, \*Oct. 44

### Concrete:

Hi-performance system remedies damaged concrete, \*Feb. 22

Modified precast girders save on L & N bridge, \*Feb. 38

### Con-Force Costain:

Inside Con-Force Costain's plant, \*Dec. 33

### Culverts:

Culvert inspection—Part 1: Examining the main structure, \*July 28

Culvert inspection—Part 2: Examining other components, \*Aug. 42

Preparing culverts for thaw, (A) Sept. 70

### Directory:

Railroad track contractors, July 43

### FAST:

Redirection at FAST, (E) Feb. 66

Clarifications from FAST, (F) Nov. 12

### Federal Railroad Administration:

AAR reply to proposed FRA standards, (E) March 36

### Geotextiles:

Cites neglect of filter fabrics, (F) Feb. 62

In-depth view of geotextile subgrade stabilization, \*June 22

Engineering filter fabric guide, \*June 32

Geotextiles at work, \*June 36

Use of filter fabrics, (A) July 90

Use of filter fabrics, (A) Aug. 54

Perils of installing filter fabrics, (A) Sept. 78

### Grade crossings:

Grade crossing match on Southern, \*Jan. 39

Federal financing for grade crossing, (A) Feb. 46

Educate government agencies, (A) March 94

Grade crossing renewal: the B & M experience, \*May 25

Gains continue, competition for funds tighten, \*May 36

Obtaining the best crossing surface, \*May 38

Grade crossing table, \*May 44

Anatomy of a steel crossing installation, \*Sept. 64

### Human resources:

Conscientious employees; morale, good attitude, (A) April 64

Not just a number on the payroll, (F) Dec. 10

### Jackson Jordan:

Tandem tamper from ground up, \*Nov. 48

### Long Island Railroad:

LIRR reducing maintenance with CRC track slabs, \*Aug. 48

Louisville & Nashville:

Modified precast girders save on L & N bridge, \*Feb. 38

Production strategy speeds L & N spotwork, \*Sept. 38

### Maintenance of way:

Sinking spell seen for M/W this year following so-so year in 1979, \*Jan. 16

Matching M/W practice to required use of track—Part 4: the costs, \*Jan. 21

The ideal—and the reality, (E) Jan. 52

Crossroads for suppliers? (E) March 114

Day of the consultant, (E) April 70

Cutback specter is hovering, (E) June 66

Ms. in M/W, \*Sept. 58

A game of deadly tag, (E) Sept. 98

Unsung heroes, (E) Oct. 74

Unsung heroes—II, (E) Nov. 65

1981-1985—profiles of real growth in M/W spending, \*Dec. 34

Report probes equipment maintenance, \*Dec. 40

Unsung heroes—III, (E) Dec. 53

### Marmon Transmotive Railway Products:

Tie unloading crane walks to work, \*Jan. 36d

### Maxi-span:

Large-span plate structure both bridge and tunnel, \*Oct. 36

### National Transportation Safety Board:

NTSB special investigation: Millions for RR training, but . . . Jan. 32

### Northeast Corridor:

Panel renewal system spurs NEC interlocking work, \*March 27

### Organizations:

Keep this guide on track, (E) July 98

### Pandrol:

New process speeds rail clip production, \*Feb. 26

### Rail:

Cascading CWR, (A) March 100

System saves on year-round rail grinding, \*May 46

Curing rail tipping, (A) July 86

### Rail fasteners:

New process speeds rail clip production, \*Feb. 26

Ideal track fastening, (A) Feb. 42

Concrete tie fastener manufacturer provides international overview, \*Aug. 32

The direct fixation fastener at work, \*Oct. 28

### Research and development:

Track research escapes cuts, (E) May 67

### Roadmasters' and B&B conferences:

Challenges of the 80's: fostering the human ingredient, \*Oct. 24

### Safety:

NTSB special investigation: Millions for RR training, but . . . Jan. 32

Eliminating derailments, (A) Feb. 40

AAR reply to proposed FRA standards, (E) March 36

Gains continue, competition for funds tighten; grade-crossing safety program, \*May 36

Safety procedures, (A) Aug. 58

### Silikal North America, Inc.:

Hi-performance system remedies damaged concrete, \*Feb. 22

### Soil stabilization:

Measures for unstable subgrade, (A) Jan. 42

CP Rail stabilizes soil electrically, \*Feb. 30

Additional subgrade discussion, (F) April 17

In-depth view of geotextiles subgrade stabilization, \*June 22

Use of filter fabrics, (A) July 90

Use of filter fabrics, (A) Aug. 54

Interior support stiffens embankment renewal, \*Sept. 32

### Southern Railway:

Grade crossing match on Southern, \*Jan. 39

In-track welder fills bill for closure welds on Southern, \*March 83

### Southern Pacific:

System saves on year-round rail grinding, \*May 46

### Spikelock Corp.:

The increasing use of spike retention method, \*Nov. 40

### 3M:

New insulated jointing fights corrosion, \*Oct. 46

### Ties:

The accrual of tie chunks, (A) Jan. 48

To up Cedrite tie production, \*Feb. 36

The timber tie: today's standby, adaptable for future, \*March 56

RTA president examines wood tie "shortage" question, \*July 32

The concrete tie: performance roundup, \*Aug. 26

Developing a standard transit tie . . . , \*Aug. 38

Strange bedfellows, (E) Aug. 66

Can ties be too close? (A) Sept. 74

Dapping of bridge ties, (A) Sept. 92

CN Rail—Part 2 continued, Examining the concrete tie option, \*Dec. 26

Inside Con-Force Costain's plant, \*Dec. 33

### Track:

Strengthening "weak link," turnouts, (A) Feb. 52

Determining best track modulus, (A) Feb. 54

Panel renewal system spurs NEC interlocking work, \*March 27

Turnouts, (A) March 96

Track modulus, (A) March 96

Experience vs. automation: use of spot board and lining track by eye, (A) March 105

Purpose of sliding joints: use on moveable-span and fixed-span bridges, (A) March 106

Comments lacking on major improvements, (F) April 17

Special tie plate/spike system tested on UP, \*April 42

Short line upgrades with extra-tight rail joints, \*April 43

Experience vs. automation: use of a spotboard and lining track by eye, (A) April 52

Use of laser beams, advantages, (A) May 54

Track research escapes cuts, (E) May 67

Contractor inspection program eases industrial track headaches, \*July 70

Converting jointed tracks, (A) July 85

Curing rail tipping, (A) July 86

Preventing engine burns, (A) July 88

LIRR reducing maintenance with CRC track slabs, \*Aug. 48

Track panel construction, (A) Aug. 56

Safety procedures, (A) Aug. 58

Prevent sun kinking, (A) Aug. 60

Production strategy speeds L & N spotwork, \*Sept. 38

Correcting soft running, (A) Sept. 74

Advantages of long, continuous switch ties, (A) Sept. 78

The direct inspection of track, Oct. 30

New insulated jointing fights corrosion, \*Oct. 46

Load bearing on ballast, (A) Oct. 52

"Joint and center" concept, (A) Oct. 70

Increasing use of spike retention method, Nov. 40

"Joint and center" concept, (A) Nov. 54

Avoiding breaks in track seal, (A) Dec. 48

## General Article Index Continued

### Track machinery:

- Tie unloading crane walks to work, \*Jan. 36d
- Tie-but/rotating dump unit also a ditcher, \*Feb. 32
- New machines speed track surfacing to meet construction schedule, \*March 76
- The laser/tamper team, \*April 40
- Grinder packs greater power, \*July 74
- New tie handler is born, sees action in Chessie tie gang, \*Sept. 62
- Tandem tamper from ground up, \*Nov. 48
- Salvage or purchase new machine components, (A) Nov. 58
- New track work system high on versatility, \*Dec. 38
- Report probes equipment maintenance, \*Dec. 40

## NEW PRODUCTS (\*) Illustrated

- Abema Corp.:
  - Multi-purpose drill/breaker, \*Sept. 67
- Aerogrip Corp.:
  - Thermoplastic hose, \*April 50
  - Flexible pipe joints, \*July 82
- Ajax Magnathem Inc.:
  - Induction heater for compromise joints, \*Oct. 47
- Allegheny Drop Forge Co.:
  - Reshaped joint bar section, Jan. 40
- Amsco Division:
  - Compact automatic welding, July 82
- Arcal Chemicals Inc.:
  - Concrete waterproofers and strengtheners, Nov. 51
- Arco Solar Inc.:
  - Solar cell module, Aug. 52
- Associated Pile and Fitting Corp.:
  - Pipe pile closure boot, April 48
- Badger Construction Co.:
  - Excavator, 50,000 lb. class, \*July 82
- Bird-Johnson Co.:
  - Rotary actuator, Oct. 47
- Carboloy Construction Products:
  - Carbide-tipped cutting tool, July 82
- Chemgrout, Inc.:
  - Automated grouting plant, \*April 50
- Comet Equipment Co.:
  - Insulated gauge rods, \*July 82
- Crown Chemicals:
  - Semi-sterilant herbicide, Aug. 64
- Diamond Saw Works, Inc.:
  - Band saw tilting clamp, Nov. 51
- Dresser Industries, Inc.:
  - High horsepower rough terrain crane, \*March 88
- Empire Abrasive Equipment Corp.:
  - Economical sandblaster, \*Aug. 52
- Fact, Inc.:
  - Portable pressurized cleaning unit, \*Dec. 41
- FMC Corp.:
  - Tapered carrier design, rough terrain crane, \*May 48
- Galion Manufacturing Division:
  - Articulated grader, \*July 82
- Garon Products, Inc.:
  - Long-lasting herbicide, Nov. 51
- Hercules Bumpers, Inc.:
  - Fuel-saving tailgate, \*Nov. 50
- Hotsy Corp.:
  - Pressure washer features variable performance, \*Jan. 40

## INDEX TO AUTHORS

### (\*) Illustrated articles

- Abbott, Russell A., (A) Sept. 74
- Allen, W. W., (A) March 94
- Amos, Charles A., \*May 36
- Ash, Edwin H., (A) April 56
- Barnes, Ed., (A) March 105
- Batory, R. L., (A) Feb. 51
- Bechly, D. S., (A) March 100
- Berger, J., (A) Sept. 92
- Berryman, P. L., (A) Aug. 61
- Bolduc, Robert G., (A) Feb. 54, (A) Feb. 56
- Brewer, David S., (A) Oct. 54
- Briggs, K. F., III, (A) July 92
- Brooks, Max, \*Sept. 52
- Cagle, L. D., (A) Sept. 74
- Cargill, D. S., (A) Nov. 56
- Carlson, M. N., (A) April 58
- Carr, James M., (A) Nov. 54
- Catlin, Larry, (A) July 85
- Cerny, Louis T., (E) March 36
- Chandler, J. E., (A) Dec. 48
- Christy, G. M., (A) July 86
- Collins, Thomas J., \*April 34
- Cosgrove, P. A., (A) May 63
- Cummins, C. H., (A) March 98
- Davidson, J. W., (A) March 99, (A) April 59
- Dennis, R. E., (A) April 52

### Training:

- Committee 27 meeting: training help sought from suppliers, \*April 31
- Training programs vs. experience, (A) May 61
- Tuscola and Saginaw Bay Railway:
  - Short line upgrades with extra-tight rail joints, \*April 43
- Tunnels:
  - Modern geo-techniques ease transit tunneling, \*Sept. 44
- Union Pacific:
  - Special tie plate/spike system tested at UP, \*April 42
- Union Carbide:
  - Effective low-volume herbicide spraying, \*Oct. 40
- Van de Water, G.A.:
  - The Canadian National: Part 1, Winning against

### Hydraulic Energy Co.:

- Hydraulic energy winch, April 50
- ITT Outdoor Lighting:
  - Compact sodium luminare, \*April 50
- JCB Inc.:
  - Backhoe tool attachment, Aug. 64
- Johnson Rubber Co.:
  - New tie pad, \*May 64
- Joyce-Cridland Co.:
  - New power jacks, May 64
- Laser Alignment Inc.:
  - Model 4000 rail alignment system, \*Aug. 52
- Lewis Bolt & Nut Co.:
  - New spike tool, \*Sept. 67
- Loram Maintenance of Way, Inc.:
  - New grinder system removes corrugations only, \*May 64
- McCulloch Corp.:
  - Portable gasoline-powered generator, \*March 88
- Midwest Industrial Supply:
  - Eliminates switch freezing, Oct. 47
- Midwest Steel:
  - Heavy duty bumper, \*Aug. 64
  - Heavy duty switch stand, \*Oct. 48
- Mine Safety Appliances Co.:
  - Lightweight protective hoods, Jan. 40
- National Crane:
  - New cranes from National, \*March 88
- Nolan Co.:
  - Redesigned track trailer, \*Jan. 40
  - Heavy-duty push cart, redesigned braking system, \*April 48
- Northwestern Equipment and Supply Co.:
  - Safe cylinder handling, \*Aug. 52
- Pall Corp.:
  - Billow filter, Aug. 64
- Plasster:
  - High-speed ballast regulation, \*April 48
- Portec, Inc.:
  - Gang-Nail, toolless installation, Aug. 52
  - New track inspection motor car, \*Sept. 67
  - Transit snow blower, \*Sept. 67
  - Lightweight inspection vehicle, \*Dec. 41
- Racine Railroad Products:
  - Precision adzing, \*July 82
- R.R. Crossings, Inc.:
  - All steel grade crossing, \*Nov. 50
  - Grade crossing design improvement, \*Dec. 41
- Railroad Friction Products Corp.:
  - Interlocking crossing module, \*April 50
- Reynolds Metals:
  - Aluminum snow fence, \*Sept. 67
- Randustrial Corp.:
  - Plastic Rock floor resurfacier, Jan. 40
- Rexnord, Inc.:
  - New scarifier, inserter, \*Oct. 47

- Diersen, L. M., (A) Sept. 92
- Divine, P. V., (A) May 54, (A) Nov. 58
- Donohue, L. W., (A) March 105

- Elias, Victor, \*Sept. 32

- Fainbloom, S. J., (A) May 54

- Goforth, J. A., \*Sept. 32
- Gupta, Ved P., (A) July 94
- Gupta, Soma N., (A) Oct. 56

- Hague, Charles H., (A) Oct. 56
- Hahn, H. D., (A) March 99
- Hamilton, G. W., (A) Sept. 78
- Hamilton, W. R., \*Oct. 28
- Hedley, William J., \*May 38
- Henderson, K. E., (A) Oct. 70
- Horton, B. F., (A) Aug. 56
- Hunt, R. A., (A) Feb. 53

- Intlekofer, C. F., (A) March 103
- Izzo, S., (A) April 58

- Jackson, B., (A) Feb. 42, (A) Feb. 52, (A) Feb. 54

- Kaelin, C. R., (A) Feb. 42

- Lepman, J. M., (A) Sept. 81
- Ludwig, K. J., (A) March 106, (A) Oct. 56

- Mallett, Douglas V., \*March 56
- Marlow, M. J., (A) Aug. 54
- Massey, R. J., (A) Feb. 48
- McBrearty, Marvin J., (A) April 64
- McCue, Patrick H., (A) Feb. 46
- McGinley, M. E., (A) March 96
- Middleton, William D., \*Sept. 44
- Newby, J. E., (A) Jan. 47, \*June 22

### Vegetation control:

- Vegetation control: The state of the art, \*Feb. 18
- Panel examines railroad and herbicide applicator relation, \*Feb. 20
- Banded herbicide application, \*July 76
- Supervising vegetation control, \*Sept. 52
- Training herbicide supervisors, (A) Sept. 88
- Effective low-volume herbicide spraying, Oct. 40
- Welding:
  - In-track welder fills bill for closure welds on Southern, \*March 83
- Winter:
  - Winter war, CP Rail battles blizzards coast-to-coast, \*Jan. 20
  - Abominable snowdrifts—BN ready, \*Feb. 11

### Safetran Systems Corp.:

- Four roller rail handler, \*Nov. 51
- Schramm, Inc.:
  - Portable low noise compressor, April 48
- Soiltest, Inc.:
  - Compact computerized concrete stress tester, \*Jan. 40
  - Lightweight pocket seismograph, \*March 88
  - Seismic tape recorder, \*Aug. 64
  - New soil consolidometer, Nov. 50
- Solaronics, Inc.:
  - Portable infra-red heater, \*Jan. 40
- SOS Lighting Devices:
  - New safety strobe, \*Sept. 67
- Spectrum Infrared Inc.:
  - Forced air switch heater, \*Aug. 64
- Sterling Manufacturing Co.:
  - Direct reading USGS plotting scales, April 50
- Structural Rubber Products Co.:
  - Rubber-grade crossing, \*May 48
- Sullari Air Tools, Inc.:
  - New spike driver, \*Aug. 52
- Summit Tool Co.:
  - Ratchlock, adjustable combination tool, April 48
- Sycon Corp.:
  - Versatile gauges, \*Aug. 64
- Szarka Enterprises, Inc.:
  - Improvements in crossing system, \*May 48
- Tamper:
  - Versatile spot tamper, \*Oct. 47
- Telewell, Inc.:
  - CWR cooling car, \*April 50
- Thiele Inc.:
  - Improved dump body hoist, \*Nov. 51
- 3M Co.:
  - Rail insulating preform, \*Sept. 92
- Tube-Lok Products:
  - New track work system high on versatility, \*Dec. 36
- Wacker Corp.:
  - Gasoline-powered vibroplate, July 82
- Warner & Swasey:
  - Carrier for G-1000 hydraulic excavator, \*Aug. 64
- Hi-rail excavators, \*Dec. 41
- Wain-Roy, Inc.:
  - Backhoe clamshell permits one-man changes, \*Jan. 40
  - Quick-change ripper tooth, \*April 48
  - Backhoe ripper bucket for rocky terrain, \*Oct. 48
- A. H. Weber Co.:
  - Track broom brush, March 88
- Western Rail Road Builders, Inc.:
  - Crossing panels resist abrasion, March 88
- Xorbox:
  - Oxygen generator, July 82
- Zonic Technical Laboratories:
  - Minicomputer analysis system, Aug. 52

- Nielsen, Ned, \*April 40

- Overby, B. F., (A) Aug. 60

- Pape, Fred T., (A) Aug. 54
- Peckover, F. L., (A) Oct. 52
- Peglow, C. G., (A) Sept. 76
- Pietrandrea, Bob, \*July 70

- Rees, F. L., (A) March 102
- Rundell, L. E., (A) May 61

- Schaaf, H. L., (A) Jan. 47
- Seay, F. S., Jr., (A) March 103
- Shahayda, L. A., (A) Sept. 78
- Sinkins, R. L., (A) Oct. 50
- Singer, Robert, (A) Dec. 48
- Slater, Larry, (A) Nov. 55
- Snyder, Larry, (A) Feb. 50
- Sullivan, D. F., (A) May 58
- Sweeney, R. A. F., (A) Dec. 43

- Tamms, W. R., (A) Nov. 59

- Terrill, V. R., \*May 25

- Turner, W. J., Jr., (A) Sept. 82

- Turney, D. E., Jr., (A) Aug. 58

- Uppal, A. Shakoor, \*July 28, \*Aug. 42

- Weber, John W., \*Aug. 26
- Webster, C. T., (A) Dec. 43
- Wheeler, R. E., (A) Feb. 48
- Whitney, N. E., Jr., (A) Oct. 50
- Wilson, John T., (A) Jan. 42, (A) July 90
- Winter, George, (A) March 100
- Witkiewicz, Paul J., \*Aug. 38

- Zarembski, Allan M., \*Nov. 30
